REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 C.F.R. §1.322

TO THE COMMISSIONER FOR PATENTS
SIR/MADAM:

Applicants request that the Commissioner issue a Certificate of Correction to correct the following errors in the above-referenced patent.

Line (75) on cover page of patent

Replace:

"Inventors: Jun-Hong Lee, Jae-Young Park, Chun-Soo Park"

With:

"Inventors: Jun-Hong Lee, Chun-Soo Park"

Applicants believe that there are no fees due in connection with this request for the following reasons. Specifically, Applicant filed a Petition Under 37 CFR 1.48(b) for Correction of Inventorship on September 14, 2009 in order to remove Jae-Young Park as a named inventor due to the cancellation of certain unelected, withdrawn claims. On October 6, 2009, however, U.S. Patent 7,599,723 issued with three inventors named, including Jae-Young Park. On October 14, 2009, the U.S. Patent Office issued a Replacement Filing Receipt (attached hereto)

U.S. Patent No. 7,599,723
Request for Certificate of Correction
December 17, 2009

correcting the inventorship from "Jun-Hong Lee, Jae Young Park and Chun-Soo Park" to "Jun-Hong Lee and Chun Soo Park".

Applicants have enclosed the Replacement Filing Receipt and Form PTO/SB/44 showing the necessary corrections to the patent. Applicants believe that there is no fee due in connection with the filing of this request. If, however, Applicants owe any additional fee(s), the Commissioner is hereby authorized to charge the fee(s) to Deposit Account No. 08-0750. In addition, if there is ever any other fee deficiency or overpayment under 37 C.F.R. §1.16 or 1.17 in connection with this patent application, the Commissioner is hereby authorized to charge such deficiency or overpayment to Deposit Account No. 08-0750.

Respectfully submitted,

/Anthony G. Fussner/

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico.
